

PRINCE2™ Practitioners Conversion

3 Days

PP

OVERVIEW

Delegates must have previously passed the Foundation examination and are expected to have refreshed their PRINCE2 knowledge before attending this programme as this programme prepares delegates to pass the practitioner exam, rather than teaching the PRINCE2 method itself.

DESIGNED FOR

Suitable for delegates who have completed the PRINCE2 Foundation examination within the past six months either with Demos or elsewhere and wish to complete the Practitioner examination. Candidates should also have recent practical experience of managing projects. In other circumstances we believe the 5-day Foundation and Practitioner course is better suited.

TOPICS COVERED

- Refresher of PRINCE2 methodology
- Sample scenarios
- Practitioner examination techniques
- Sample questions
- The PRINCE2 practitioner examination
